TC 1700

Please add the following new claims:

16
Rule 17. A bristle carrier for a brush, comprising:
126. 1 a bristle receiving portion;
1 at least one pre-molded hole disposed in the bristle receiving portion and comprising a bottom and at least one side-wall; and
A2 a projection disposed in the bottom of the pre-molded hole,
wherein the hole is configured to receive an end of a bristle tuft, wherein the end comprises a fuse-ball having a diameter greater than a diameter of the tuft.

17
18. The bristle carrier of claim 17, wherein a side surface of the protrusion is perpendicular to the bottom of the hole, parallel to the at least one side-wall of the hole, or both.

18
19. The bristle carrier of claim 17, wherein an upper surface of the protrusion exhibits a three-dimensional contour.

19
20. The bristle carrier of claim 17, wherein a plurality of projections are disposed in the bottom of the pre-molded hole.
